Certificate of good completion

To whom it may concern:

I, Bolier TORRES, professor and researcher at the Universidad Estatal Amazónica (UEA) in Ecuador, hereby certify that Anis CHAKIB, completed all required tasks relating to a research program conducted through research agreement between the Universidad Estatal Amazónica (Ecuador) and the University of Missouri (USA) on the evaluation of the impact of the Socio-Bosque conservation program on deforestation and forest degradation in the Amazon region of Ecuador between March 2014 and December 2014.

The tasks were as follows:

- Work planning, logistics management, scientific and technical support, contacts with communities and land owners, reporting;
- To collect data together with a field team in a forest inventories on more than 200 plots of 25m x 25m in secondary and primary tropical rainforest in the Amazon region of Ecuador;
- To collect data together with a field team in a socio-economic surveys and econometric questionnaires with more than 200 rural households in the Amazon region of Ecuador;
- To support in the data entry and database management;

I confirm that the tasks carried out by Anis CHAKIB were in accordance with the terms of the contract, including the results agreed upon and in respect of the agreed deadlines. The work performed is therefore satisfactory. Anis demonstrated a deep appreciation for his work by always being enthusiastic about talking to the colleagues and other scientists about our projects in the Amazon. He was genuinely interested in the Amazon. I really appreciate the work performed by Anis in our project about the assessment of Socio Bosque Program in Ecuador, which for sure will contribute to the better understanding of the management of natural resources in the Ecuadorian Amazon, and will allow for better decision-making and debate about the payments for environmental services and REED+ projects in Ecuador.

The certificate is issued to Anis CHAKIB upon his request, to assert his right.

Sincerely,

Bolier Torres
