

Curriculum Vitae

Gabriel MORIN-KASPRZYK

Agro-pastoral, Agro-Forestry & Environment Expert

SalvaTerra SAS www.salvaterra.fr

Surname: MORIN-KASPRZYK **First names:** Gabriel, Guilhem, Florent
Birth date: 30/01/1984 **Marital status:** Married, 1 child
Nationality: French **Skype:** g.morink
Mobile phone: +33 6 62 98 66 69 **E-mail:** g.morink@salvaterra.fr

Education:

<i>Institutions</i>	<i>Dates</i>	<i>Title of qualification awarded</i>
SupAgro Montpellier (France)	2003 - 2007	Agronomist engineer (<i>Master's Degree</i>), specialized in tropical agronomy and livestock breeding
Lycée Clémenceau, Montpellier	1998 - 2001	"A" level in science with options in mathematics

Languages (1 - excellent; 5 - basic):

<i>Languages</i>	<i>Understanding</i>	<i>Speaking</i>	<i>Reading</i>
French	1	1	1
English	1	2	2
Spanish	1	2	2
Malagasy	5	3	5
Polish	5	4	5
Swahili	5	5	5

Computer skills: graphic design: Adobe Photoshop / Illustrator / Indesign. Database and GIS: Access, QGis, MapInfo, ArcGis. Office, Internet, etc.

Main skills and abilities:

- **Rural development in southern countries, tropical agronomy and animal sciences, natural resources management;**
- **Project feasibility studies and value chains analysis:** technical and economic analysis on agricultural and agro-forestry value chains in tropical areas, such as cocoa, rubber, coffee, palm oil, food crops and small livestock;
- **Agricultural innovations, climate-smart agriculture and sustainable agriculture:** agro-ecology, agroforestry, agriculture and livestock integration, crop rotations, biomass flow optimization, fertility management, composts, watershed protection, water and soil conservation, hydroponics, permaculture;
- **Tropical, Mediterranean and mountain breeding:** animal husbandry, pastoralism, dairy farming, artificial insemination, fodder production, small ruminant farming, poultry farming, pig farming;
- **Support/advising for family farming:** farm management, dissemination of innovations, farmer networks, risk management, resource allocation, planning, development of local agricultural services (supply of inputs, plant material, marketing of agricultural products, etc.), reduction of harvest / post-harvest losses;
- **Support/advising for farmer-based organisations (FBOs):** management, strategy and planning, development of services to members, on agricultural sectors: irrigation, rice, maize, and livestock sectors (dairy, poultry, etc.);
- **Enhancement of hydro agricultural development:** organization and maintenance, water management, support and advice to water-user organisations (small and large perimeters);

- **Rural development communication:** educational design of awareness campaigns, training and extension in rural development, in the fields of agriculture, livestock, fisheries, environment, nutrition, and health. Original creation of training, communication, advisory, and extension infographic tools for rural development projects;
- **12 years of experience in southern countries:** good knowledge of the rural environment in Sub-Saharan Africa and Madagascar, high level of adaptability to local contexts, short and long-term assignments on the field; Intense working ability, good leadership and manager, responsiveness, patience, listening and good relationship; Good language skills, taste for travel and encounters; Design graphic creativity.

International experience:

<i>Countries</i>	<i>Dates</i>
Burkina-Faso	May 2013 to July 2016; July to December 2016
Burundi	April to July 2017
Côte d'Ivoire	May to June 2018
France	Since April 2018
Guinea (Conakry)	December 2016 to March 2017
Madagascar	February 2008 to December 2012; January to July 2013; October 2014 to February 2015; January to March 2015; April to June 2016; October to December 2016; May to August 2017; January to April 2018
Mali	September 2005 to April 2006
Peru	March to August 2007
Spain	May to July 2006
Tanzania	March to April 2016; February 2017 to April 2018
Uganda	March to April 2016

Professional experience:

Dates	Location & Organisation	Position & Contact	Description
Since 05/18	France	Expert SalvaTerra SAS Ref: o.bouyer@salvaterra.fr	Program officer and consultant in agriculture, livestock, forestry and environment
05 to 06/18	Ivory Coast	Agro-economist expert	Technical support to the African Development Bank for the preparation of the Evaluation Report of the Integrated Program for Development and Adaptation to Climate Change in the Niger River Basin (PIDACC / BN), consistent with the Forest Capital Restoration and Resilience Improvement Project (PCFAR) and the Forest Investment Plan (FIP) of Ivory Coast, including the REDD+ strategic directions. Technical support on agro-forestry operating accounts and value chains analysis (cocoa, rubber, palm oil, cashew nuts, and coffee) and subsistence crops value chains (legumes, cassava). <i>Work in process.</i>
02 to 05/18	France	Team leader Ref: marion@lessourciers.com Mob:+337 87 11 61 65	Support to the hydroponic farm "Les Sourciers" (http://lessourciers.com/): Improvement of their communication and training materials, for online training offer. Support for the definition of the graphic charter, creation of physical and digital communication media (flyers, posters, etc.), illustrations and infographics. <i>Publication (French): LES SOURCIERS (2018). Flyer évènementiel de promotion de la ferme hydroponique et de ses formations et prestations de service. France, 2 pages.</i>
01 to 04/18	Madagascar (West Coast)	Agronomist/graphic designer Ref: adrian@blueventures.org Mob: +261 34 20 340 03	Support to the Blue Ventures social enterprise (https://blueventures.org/): Technical design of a guide on the improvement of the "mangrove crab" value-chain in Madagascar, in collaboration with the key-expert on fisheries; design and illustration of the Guide. The guide aims at disseminating 16 peasant fishing and storage innovations to reduce post-harvest losses, selected during an innovation competition organized by the FAO / Smartfish program. <i>Publication to come (French, Malagasy): BLUE VENTURES (2018). La filière du crabe de Mangrove : guide des bonnes pratiques (gagner plus sans pêcher plus, est-ce possible ?). Antananarivo, Madagascar, 50 pages.</i>
10/17	France (Normandie)	Team leader Ref: aquaponienormandie@gmail.com Mob:+33 6 73 23 66 89	Support to the pilot aquaponics farm "Aquaponic Farm of the Abbey" (http://aquaponienormandie.com/): Design and production of four educational information infographics and training in aquaponics (market gardening and trout production). <i>Publication (French): MORIN (2017). poster de présentation de la ferme aquaponique pilote, Normandie, France, 1 page.</i>
10/17	France (Montpellier)	Team leader Ref: nathalie.agbagla@supagro.fr Mob: +33 4 99 61 22 11	Support to the teaching staff of SupAgro Montpellier (https://www.montpellier-supagro.fr/): Realization of communication materials for Master 2 "Breeding Systems", and a communication brochure for partners. <i>Publication (French): SupAgro Montpellier (2017). Poster de la spécialisation "systèmes d'élevage". Montpellier.</i>

Dates	Location & Organisation	Position & Contact	Description
			France, 2 pages.
05 to 08/17	Madagascar (South-East)	Agronomist/graphic designer Ref: louvet@agrotec-spa.net Mob: +261 32 03 510 61	For Agrotec within the ASARA project (http://asara-aina.eu/): design of a technical guide on the conservation of cereals and legumes, and the reduction of post-harvest losses in the South-East of Madagascar in collaboration with the key-expert on post-harvest management; educational adaptation, graphic design and illustration. <i>Publication (French, Malagasy): ASARA FED 2013/318-738 (2017). Guide de stockage des céréales et légumineuses, Madagascar, Sud-Est et Sud, (Torolalana momba ni fitehirizana serealy sy legiminaozy, Madagasikara, Atsimo Ananana sy Atsimo). Antananarivo, Madagascar, 50 pages.</i>
04 to 07/17	Burundi	Team leader Ref: leclerq@sher.be Mob: +32 81 32 79 80	For SHER / Artelia group (http://www.sher.be) and the Institutional and Operational Support Program for the Agricultural Sector (Paiosa) of the Belgian Development Agency (ENABEL) and the Ministry of Agriculture and Rural Development Livestock (http://www.atlasdesmarais-bdi.org/): Participation in the technical design of a guide on management, maintenance and up keeping of rice irrigated perimeters in Burundi, within the framework of a National Atlas on the developed marshes. Instructional design, graphic design and illustration of two versions of the guide i) for rural engineering technicians, and ii) for water user associations, in French and Kirundi. <i>Publication (French, Kirundi): PAIOSA (2017). Manuel d'entretien des aménagements hydroagricoles au Burundi (Kubungabunga ahitunganijwe kijambere kandi bavomera imirima mu Burundi). Bujumbura, Burundi, 64 pages.</i>
12/16 to 03/17	Guinea Conakry	Team leader Ref: a.palliere@apdra.org Phone: +33 1 69 20 38 4	Support to the fish farming association (APDRA http://www.apdra.org/) within the framework of the project for the development of peasant rice & fish farming in Forest Guinea (PDRP-GF): Realization of a technical guide in peasant rice & fish farming for technicians and training farmers; support for technical design, instructional design, graphic design. <i>Publication (French): APDRA (2017). Guide de la pisciculture paysanne en Guinée Forestière. N'Zérékoré, Guinée, 97 pages.</i>
09 to 12/16	Burkina-Faso (Mouhoun)	Food security expert / graphic designer Ref: kabore@gret.org Mob: +226 25 36 10 65	For GRET Burkina-Faso (http://www.gret.org/): Technical and graphic design of an animation tool support (improved image box type) about nutrition in relation to the productions and the agricultural calendar, as part of the Resilience of the Poor and Food Security project in Mouhoun (REPAM). <i>Publication (French): GRET (2017). Production agricole, santé et nutrition - outil pédagogique illustré, dans le cadre du projet REPAM. Mouhoun, Burkina-Faso, 42 pages.</i>
07-09/16	Burkina-Faso , Benin, Niger (W, Arly, Pendjari)	Agriculture/environment expert Ref: tordeur@sher.be Mob: +32 81 32 79 80	Support to SHER (http://www.sher.be/) for the closure of the regional wildlife infrastructure technical control project carried out as part of the Entente W, Arly, Pendjari Parks Support Project (PAPE, Burkina Faso, Benin, and Niger). Support to the development of the technical and financial offer of GFA-SHER-Corade consortium for the KFW call for proposals regarding the Agricultural Productivity Project by Water and Soil Conservation (PACES) in Burkina

Dates	Location & Organisation	Position & Contact	Description
			Faso (duration 4 years, budget 10 M€). Confidential deliverables.
04 to 06/16 ; 10 to 12/16	Madagascar (South-East)	Agronomist/graphic designer Ref: louvet@agrotec-spa.net Mob: +261 32 03 510 61	Support to Agrotec within the ASARA project (http://asara-aina.eu): Design of a technical guide on the conservation, transformation and reduction of post-harvest losses in the fish sector in the South-East of Madagascar with the key-expert on fisheries; educational adaptation, graphic design and illustration. <i>Publication (French, Malagasy): Projet ASARA FED 2013/318-738 (2016), Manuel technique sur la diminution des pertes post-capture dans la filière poisson au Sud et Sud-Est de Madagascar (Boky fianarana teknika fampihenana ny fahaverezana ara-bokatra eo amin'ny seha-pihariana fia). Antananarivo, Madagascar, 42 pages.</i>
03 to 04/16	Tanzania, Uganda	Agronomist/graphic designer Ref: Clotilde.Bodiquel@fao.org Mob: +230 402 6100	For FAO in the framework of the SmartFish program: Illustration of a guide of good practices for the reduction of post-harvest losses in the pelagic fish value chain (fishing, transport, processing, and marketing) in East Africa / Indian Ocean. <i>Publication (English): SMARTFISH IOC-FAO (2016). Handling of Small Pelagic Fish - Illustrated Operator's Manual, SF-FAO/2016/38, Indian Ocean. 22 pages.</i>
01 to 03/16	Burkina-Faso (Nord)	Team leader Ref: fert.lsare@gmail.com Mob: +226 72 90 68 06	For Fert Burkina-Faso (http://www.fert.fr): Creation of an original animation tool about agro-ecology, targeting the Unions of cowpea producers groups supported by Fert, on the basis of a capitalization over the last ten of support to the cowpea value chain. Support of the Fert team and representatives of the Unions for the design of the tool (with test phase with a peasant group in the field). Technical and educational design, graphics and illustration. <i>Publication (French, Moore): FERT (2016). Outil d'animation sur l'agro-écologie : «Et maintenant, on fait quoi ?» (Kogl-zāng-koobā sōsq tuum teogo «La morsā d maanda bōe ?»). Région Nord, Burkina-Faso, 26 pages.</i>
05 to 06/15	Burkina Faso - Bénin	Agronomist/graphic designer Ref: d.sabourault@delphicominternational.com Mob: +226 25 34 14 61	For IUCN, as a consultant of the Dephicom Africa Communication Agency (http://www.delphicomafrique.com): technical design and illustration of capitalization tools for seven local NGOs working in local protected areas, on the outskirts of parks and wildlife reserves in West Africa. Animation of a workshop with training in an interactive tool power point "stakeholders diagrams". <i>Presentation (English): Delphicom Afrique (2015). Animation tool: Table of Stakeholders. West Africa, 27 pages.</i>
04/15 to 06/16	Burkina-Faso	West Africa representative SHER (ARTELIA group) Ref: gatin@sher.be Mob: +32 81 32 79 80	Representation of SHER (Company for Hydraulics, Environment and Rehabilitation, http://www.sher.be) in West Africa; Commercial prospection, customers and partners relationships, participation in the preparation of expressions of interest and tenders (small and large scale projects); Management of SHER agency and local staff, organization of missions and logistics. Backstopping and project management, including monitoring and technical control of wildlife infrastructures development in the protected areas of the W - Arly - Pendjari complex (Burkina Faso, Benin, and Niger), PAPE

Dates	Location & Organisation	Position & Contact	Description
			<p>project with UNDP / EU funding.</p> <p>Punctual technical support, economic feasibility in the framework of the preliminary design brief (APS) and detailed studies (APD), the rehabilitation and extension of two irrigated perimeters in Ivory Coast (within the framework of the support for the revival of agricultural sectors in Côte d'Ivoire - PARFACI).</p> <p>Confidential reports.</p>
01 to 03/15	Madagascar (Sud-Est et Hautes Terres)	<p>Agronomy & environment expert</p> <p>Ref: quentinl@afd.fr, goberth@afd.fr</p> <p>Mob: +261 20 22 200 46</p>	<p>Implementation for AFD and in close coordination with (i) the Regional Directions for Rural Development and (ii) the National Watershed & Irrigation Areas Unit (BVPI), for additional feasibility works within the framework of the improvement of agricultural productivity project's instruction in Madagascar (PAPAM).</p> <p>Development of terms of reference for PAPAM Component 2 in Vakinankaratra and South-East, based on lessons learned from the BVPI SEHP project (Watersheds and Irrigated Perimeters, South-East and Highlands, 2006-2012, funded by AFD and the Ministry of Agriculture).</p> <p><i>Presentation (French): MORIN (2015), atelier de fin de mission des travaux complémentaires de faisabilité du projet PAPAM pour l'AFD, 35 pages</i></p>
11 to 12/14	Burkina-Faso (Est)	<p>Dairy farming expert</p> <p>Ref: nathalie.close@harmattan.lu</p> <p>Mob: +352 661 66 00 09</p>	<p>On behalf of the Ministry of Foreign Affairs of Luxembourg and Harmattan Luxembourg (http://harmattan.lu) and in collaboration with the consulting firm Initiatives International Consulting (ICI): Evaluation of a small scale dairy project implemented by the NGO Frères des Hommes Luxembourg and the Tin Tua Association; Evaluation of support components for farmers (fodder, improved breeds) and processing (dairy process unit); Recommendations for the reorientation of the project towards the cattle fattening (meat sector).</p> <p><i>Rapport (French): HARMATTAN (2014). Evaluation du projet ACC4-01 « Autonomisation d'une unité de transformation laitière à Botou » de Frères des Hommes Luxembourg (FDH) - Rapport intermédiaire. Région Est, Burkina-Faso, 53 pages.</i></p>
06 to 09/14	France (Paris)	<p>Graphic designer</p> <p>Ref: a.lheriau@fert.fr</p> <p>Mob: +33 1 44 31 16 70</p>	<p>For the NGO Fert France (http://www.fert.fr): Illustration of a guide for the international development educator and the 2013 activity report.</p> <p><i>Rapport (French): FERT (2014). Rapport d'activités 2013. Paris, France, 56 pages.</i></p> <p><i>Publication (French): FERT (2014). Guide de l'éducateur au développement international. France, 92 pages.</i></p>
10/14 to 02/15 01 to 07/13	Madagascar (Côte Ouest)	<p>Agronomist/graphic designer</p> <p>Ref: ocean.bis@moov.mg</p>	<p>For FAO in the framework of the SMartFish program: Technical design with the main expert, of a tool kit for the dissemination of good practices and peasant innovations aimed at reducing post-harvest losses in the mangrove crab value-chain. Graphic design of pedagogical awareness, extension and training materials, in French and Malagasy, targeting farmers and operators of agricultural and fishing sectors, specifically the actors of the mangrove crab value chain.</p> <p><i>Publication (f French): SMARTFISH IOC-FAO (2014). Meilleure valorisation des crabes de mangrove à travers la</i></p>

Dates	Location & Organisation	Position & Contact	Description
			<p>réduction des pertes après capture - Manuel technique. Antananarivo, Madagascar, 81 pages.</p> <p>Conception (scenario) and realization of a comic book intended for the children in mangrove areas, for the awareness on the protection of the habitat of the crabs and the respect of good practices of sustainable management of the environment.</p> <p>Publication (French, Malagasy): SMARTFISH IOC-FAO (2015). Mahiake et le gardien de la mangrove - bande dessinée jeunesse. Antananarivo, Madagascar, 13 pages.</p>
07/ 13 to 10/14	Burkina-Faso	Program officer Ref: delalande.ici@gmail.com Mob: +226 50 30 88 60	<p>With Initiatives Conseil International (ICI, http://www.ici-burkina.com/): expressions of interest and calls for tenders (technical and financial aspects, recruitment of consultants, etc.), small and medium-scale projects monitoring and management – 10 k€ to 100 k€, <1 year (customer relations, management of multidisciplinary teams, backstopping).</p> <p>Participation in studies, among others: for Elephant Vert, feasibility study of an industrial composting unit in Burkina Faso.</p> <p>Confidential reports.</p>
01 to 04/14	Burkina- Faso (Bama, Bobo-Dioulasso)	Team leader Ref: garancefaugere@yahoo.fr Mob: +226 50 30 88 60	<p>For ICI, support to French farmers and international development (AFDI) for the diagnosis and support to the participatory development of a five-year development strategy of the Union of Rice Cooperatives of the irrigated plain of Bama.</p> <p>Report (French): ICI (2014). Diagnostic de l'Union des coopératives rizicoles Faso Djiqui de Bama et accompagnement pour la définition de sa Stratégie quinquennale. Bama, Burkina-Faso, 50 pages.</p>
11/13 to 04/14	Burkina-Faso (Sourou)	Agro-economist and irrigated lands management expert Ref: garancefaugere@yahoo.fr Mob: +226 50 30 88 60	<p>With ICI, punctual support to SHER (Society for hydraulics, the environment and rehabilitation http://www.sher.be) as part of the Millenium Challenge Account project in Sourou: technical support to water user organizations for crop planning, organization and maintenance of old and new irrigated perimeters Sourou (> 2 000 ha, a dozen of perimeters).</p> <p>Report (French): ICI (2014). Rapport intermédiaire, plans cultureux et modélisations des besoins en eau, en appui aux OUEA du Sourou, Burkina Faso, 25 pages.</p>
11/13	Burkina Faso (Sourou)	Agro-ecology expert Ref: garancefaugere@yahoo.fr Mob: +226 50 30 88 60	<p>With ICI, support to the Overseas Development Institute (ODI) think tank research team: a case study of large-scale adoption of sustainable agricultural practices (water and soil conservation, agroforestry), within the framework of a success stories highlighting project, funding by the B & M Gates Foundation. Bibliographic review, contact with resource characters, field mission's logistics.</p> <p>Publication (French): A. LENHARDT et al, with G. MORIN, 2014. "A Greener Burkina: Sustainable farming techniques, land reclamation and improved livelihoods", case study report from Overseas Development Institute. London, United-Kingdom, 44 pages</p>

Dates	Location & Organisation	Position & Contact	Description
09/09 to 12/12	Madagascar (4 Regions)	Technical advisor for Semis direct de Madagascar (SDMad) Watersheds and Irrigated Perimeters Project - South-East and Highlands (BVPI SEHP) Ref: cchabaud@moov.mg Mob: +261 33 07 124 18	<p>Technical assistance for agricultural extension and action research for SDMad, in coordination with Agronomists and Veterinarians Without Borders (AVSF, https://www.avsf.org), the Association of Fish Farming and Rural Development in Tropical Africa (APDRA. http://www.apdra.org/), the Madagascar Direct Sowing Group (GSDM http://gsdm-mg.org/), and CIRAD (https://www.cirad.fr/):</p> <p>Preparation, monitoring and evaluation of agricultural campaigns, database management (more than 6,000 farms followed by the project), setting up of pilot and reference sites, coordination of the supply of plant material and inputs, animation of the extension system. Support to 4 regional teams (30 technicians) and capacity building (design and illustration of pedagogical tools for extension and training). Watersheds approach, local landscape planning initiatives.</p> <p>Missions on the field (60% of the time) in 4 Regions (Vakinankaratra, Amoron'i Mania, Vatovavy Fitovinany, Atsimo Ananana). Writing activity and campaign reports for the 4 Regions monitored.</p> <p>Technical assistance to the project coordination unit (managed by BRL Madagascar): design, implementation and management of the monitoring and evaluation system (databases, GIS) in collaboration with the others project operators; Development of piloting and monitoring tools. Internal evaluation and impact study, end-of-project capitalization and transfer of knowledge to local technical authorities and services.</p> <p>Support for reforestation campaigns at the regional level: training and monitoring of local nursery growers (10 to 30,000 plants / site), distribution logistics, plantation monitoring (up to 600,000 plants per campaign). Support to water user associations (planning, development, maintenance).</p> <p>Support to the development of local supply of agricultural providers and link with the Regional Fund for Agricultural Development (FRDA).</p> <p><i>Report (French): BVPI SEHP (2012). Rapport de capitalisation - zone des Hauts Plateaux, co écrit avec les autres opérateurs du projet, financement AFD CMG 6003 01L – Etat malgache – Bénéficiaires. Antananarivo, Madagascar, 192 pages</i></p> <p><i>Report (French): BVPI SEHP (2012). Rapport de capitalisation - zone du Sud Est, co écrit avec les autres opérateurs du projet, financement AFD CMG 6003 01L – Etat malgache – Bénéficiaires, Madagascar. Antannarivo, 191 pages</i></p>
02/08 to 08/09	Madagascar (Lac Alaotra, Région Alaotra Mangoro)	Technical advisor Ref: seri@cg35.fr Mob: +33 2 99 02 43 65	<p>Management of a decentralized cooperation project between the French Department of Ille et Vilaine and the Malagasy Region Alaotra Mangoro (Europe and International Relations Department)</p> <p>Responsible for a training and extension program in dairy farming: Rehabilitation and management of a school farm; Training support for a hundred dairy farmers in connection with the "Watersheds Lake" project (BV Lac, CIRAD).</p> <p>Implementation and monitoring / evaluation of a regional program of artificial insemination, elected "pilot project"</p>

Dates	Location & Organisation	Position & Contact	Description
			in Madagascar by the Ministry of Livestock, in connection with the regional technical services. <i>Publication (French): Collaboration CG35-DRDR-AVSF (2009). Manuel de formation en alimentation bovin lait, Région Alaotra Mangoro, Madagascar, 23 pages.</i>
03-08/07	Peru (Andes)	Research officer Ref: claire.aubron@supagro.fr Mob: +33 4 99 61 22 65	Within the framework of a decentralized cooperation between <i>Asociación de Municipalidades de la cuenca del río Santo Tomás</i> (AMSAT) and the French Department of the Hautes Pyrénées: Diagnosis of milk production for the establishment of artisanal cheese factories; Field surveys of dairy farmers in the Andean zone, estimation of seasonal production and local consumption, case study of existing cheese factories, study of the milk value chain up to Cuzco. <i>Report (French): MORIN (2007), Mémoire de fin d'études, Diagnostic de production laitière en vue de l'implantation de fromageries rurales sur le bassin versant du Rio Santo Tomas. Andes Centrales, Pérou, 57 pages</i>
09/05 to 04/06	Mali (Sikasso et Ségou)	Research officer Ref: charles-henri.moulin@supagro.fr Mob: + 33 4 99 61 23 65 doubangolo@yahoo.fr	As part of MD Coulibaly's thesis (collaboration between CIRAD / SupAgro Montpellier and the Institute of Rural Economy of Mali): study of the mechanisms of innovation in farming systems of agro-pastoralists, selling milk products in medium cities, and development of farming advising system; Collection of data on the innovation trajectories of forty agro-pastoralists, from the 1970s to the present day (Peuhls breeders and cotton farmers who have become dairy farmers). <i>Publication (French): MORIN et al. (2007). Dynamiques des unités de production laitière dans le bassin d'approvisionnement de la ville de Ségou au Mali. Ségou, Mali, 13 pages.</i>
05-07/06	Spain (Aragon)	Farm worker Ref: asanz@aragon.es	Within the Centro de <i>Investigación y Tecnología Agroalimentaria</i> (CITA): farm worker in experimental farm - beef cattle breeding. Participation in research on the effects of calf management on reproduction and maternal behavior in Parda Montana and Pirenaica suckler cows.

I, the undersigned, certify that to the best of my knowledge and belief, this CV correctly describes myself, my qualifications, and my experience.

Montpellier, the 12th of June 2018
