

Curriculum Vitae – David COMBAZ

Expert at SalvaTerra SAS – www.salvaterra.fr

Surname: COMBAZ **First names:** David, Christophe, Hippolyte
Date of birth: 20/08/1985 **Marital status:** Married
Nationality: French **Skype:** d.combaz
Mobile Phone: +33 6 88 13 66 35 **Email:** d.combaz@salvaterra.fr

Diplomas:

<i>Institutions</i>	<i>Dates</i>	<i>Title of qualification awarded</i>
Agroparistech Executive, HEC	2011 - 2012	MBA "Forest Nature and Society – Specialty: Management Nature and Society at the International level"
Montpellier II University, Muséum national d'histoire naturelle, Agroparistech	2009 - 2010	Postgraduate diploma (MSc) in "Development and Integrated Territorial Planning"
Montpellier II University	2008 - 2009	One year postgraduate diploma in "Ecological Engineering and Biodiversity Management"
Montpellier II University	2006 - 2008	Bachelor's degree in Biology

Languages (1 – excellent; 5 – basic):

<i>Language</i>	<i>Comprehension</i>	<i>Oral</i>	<i>Written</i>
French	1	1	1
English	1	1	1
Spanish	1	1	1

Computer skills:

Windows/Mac/Linux. Word, Excel, PowerPoint and open source equivalents. GIS: Arcgis. Statistics: R. Photography edition: Adobe Lightroom & Photoshop.

Main skills and abilities:

- **Agriculture and forestry commodities value chains analysis in developing countries:** non-timber forest products (Cameroon), cocoa (Cameroon), coffee (Mexico, India), honey (Mexico, Ethiopia), textile crafts (Mexico), timber (Cameroon, Gabon, Central African Republic, DRC, Congo), palm oil (Cameroon, Indonesia).
- **Regulatory frameworks and sectorial public policies in the fields of environmental, agricultural, forestry and land-use planning:** Forest Codes in Central Africa (Cameroon, Gabon, Central African Republic, DRC, Congo) and India, tenure laws and territorial administration in Cameroon and Mexico, National Strategy for Biodiversity in Mexico, Waste Management in Mexico. Normative systems applicable to indigenous communities in Cameroon, Mexico and India.
- **Support / advice and capacity building in rural areas.** Consulting in agronomy and sustainable management of natural resources, community organization, water management, erosion control, and agro-ecology in Burkina Faso and Mexico, environmental technologies, hygiene and sanitation in rural Mexico, first transformation, quality control, traceability and access to domestic and international specialty coffee markets in Mexico.
- **Socio-economic studies, participatory planning in rural areas, sociology of organizations and stakeholder analysis in developing countries:** Territory modelling and environmental perspective in India and Cameroon, semi-structured interviews with CSOs, local communities and government agencies in Burkina, India, Cameroon and France, participatory diagnostic, territorial planning and implementation of community projects in Mexico.

Specific experience:

<i>Country</i>	<i>Dates</i>
Ethiopia	October 2018
Mexico	May 2013 – September 2018
Cameroon	August to October 2012
India	March 2012
Indonesia	May to August 2009
Burkina Faso	July – August 2007 ; July – August 2008

Professional experience:

Dates	Location and organization	Position and contact	Description
Since 09/18	France, SalvaTerra	Forest, agriculture, environment and rural development expert	Expertise and development of projects related to agriculture, forestry and rural development in southern countries.
10/18 to 12/18	Ethiopia, SalvaTerra	Project Manager Adnan ATWA +43 1 260 26 33 03 a.atwa@unido.org	Elaboration of a project to support the honey sector in Ethiopia for the development of exports to the European Union. Initial assessment of the value chain focused on the need for quality infrastructure to meet the criteria of traceability and residue control to export to the European market, characterization and quantification of needs and opportunities for improvement, writing of a project document proposal. Financing of the United Nations Industrial Development Organization (UNIDO). [Report under development]
10/18	France, SalvaTerra	Forest, agriculture, environment and rural development expert	Revision of the project identification notice "Collective and Contextualized Strategies for Promoting Resilient and Sustainable Agricultural Production in Mediterranean Rural Areas" for the Scientific and Technical Committee of the French Global Environment Facility. [Confidential report]
09/17 to 07/18	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Implementation of the "Earthquakes and Storms" emergency assistance campaign of Fondo Para la Paz in Chiapas. Identification of damaged school infrastructure and risk assessment in 10 indigenous communities after the earthquake of September 7, 2018 In the Highlands region of Chiapas State, Mexico. Development and implementation of participatory diagnostic and planning methods for the rehabilitation and reconstruction of 8 school centers with private financing (Scotiabank, Metlife, Fondo Unido Mexico). Validation of the administrative files and follow-up of the execution of the corresponding works, integration with the municipal plan of risk management Fondo Para la Paz (2018). Reconstrucción y rehabilitación de aulas afectadas por sismos y tormentas en Chiapas y Oaxaca durante 2017. Distrito Federal, Mexico. 1 p. Fondo Para la Paz (2018) Entrega de resultados – Reconstrucción y rehabilitación de aulas afectadas por sismos y tormentas en Chiapas y Oaxaca durante 2017. Distrito Federal, Mexico. 23 p.
12/16 to 11/18	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Co-authoring of the Declaration of Civil Society Organizations of COP13 of the United Nations Convention on Biological Diversity. Participation as Accredited Observer in Working Groups and Contact Group on Article 8j of the CBD. Contribution to the definition of the civil society representation mechanism of the Forum of Latin American and Caribbean Countries on Sustainable Development organized by CEPAL. Animation of the Mexican Working Group of the 8th Latin American Meeting on Community Water Management. Alianzas de la sociedad Civil y la juventud por la integración de la biodiversidad para el bienestar (2015) Pronunciamiento de la Organizaciones de la Sociedad Civil para la 13ª COP del CDB. Cancún, Mexico. 6 p. Organizaciones participantes al 1er Foro de países de América Latina y el Caribe sobre el desarrollo sostenible. Mecanismo de participación de sociedad civil en la Agenda de Desarrollo Sostenible y en el Foro de los Países de América Latina y el Caribe sobre el Desarrollo Sostenible. Distrito Federal, Mexico. 3p.
08/16 to 06/18	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Development of the production and marketing of specialty coffee (evaluated according to the Alliance for Coffee Excellence Standard) in 6 indigenous communities of Altos de Chiapas. Diagnosis of production, first processing and marketing of 148 small producers, capacity building through a producer-to-producer training method, introduction of new selection and first transformation methodologies, establishment of local quality and traceability procedures, marketing support. Fondo Para la Paz, I.A.P. (2017) Desarrollo de cadenas de valor para la producción y comercialización de café de especialidad – Fase 2. Pantelhó, Mexico. 22 p.

07/16 to 07/17	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Promotion of best practices for the diversification and ecological intensification of traditional Maya agricultural systems (milpa) in 3 indigenous communities in the Highlands of Chiapas. Realization of plot diagnostics and diffusion of conservation agriculture techniques with 21 maize and bean producers (erosion control, restoration of water flows and soil reconstruction). Establishment and follow-up of 2 demonstrative plots, and 2 educational parcels in mixed fruit-and-vegetable system in secondary schools of the region. Project realized in partnership with the International Center for Corn and Wheat Improvement (CIMMYT).
03/15 to 03/17	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	In collaboration with the Mexican Institute of Ecology and Climate Change, elaboration and management of 4 methodological guides for community technicians: 1. Facilitation and animation of community meetings. 2. Realization of participatory diagnosis of territory. 3. Participatory territorial planning. 4. Development of community projects. Training of Fondo Para la Paz field teams. Fondo Para la Paz, I.A.P. (2015) Guía para la planeación comunitaria: la facilitación comunitaria. Distrito Federal, Mexico. 29 p. Fondo Para la Paz, I.A.P. (2015) Guía para la elaboración de un diagnóstico comunitario a través de la planeación comunitaria. Distrito Federal, Mexico. 48 p. Fondo Para la Paz, I.A.P. (2015) Guía para la elaboración del plan de desarrollo comunitario sostenible. Distrito Federal, Mexico. 25 p. Fondo Para la Paz, I.A.P. (2015) Guía para el diseño y formulación de un proyecto. Distrito Federal, Mexico. 56 p.
05/15 to 12/15	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Contribution to the formalization of the theory of change of Fondo Para la Paz's Sustainable Community Development Program. Definition of objectives and intervention variables of the program, identification of context variables to be taken into account and of the assumptions underlying the intervention. Characterization of the programmatic and organizational actions to be implemented, creation of a conceptual map of the effects of the program. Training of field teams for the implementation of the program. Fondo Para la Paz, I.A.P. (2016). Presentando el PDCS (Programa de Desarrollo Comunitario Sostenible). Distrito Federal, Mexico. 21 p.
02/15 to 08/16	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Feasibility study for the realization of a municipal waste management plan in Pantelhó, Chiapas. Development of tenders and supervision of four complementary studies: 1. Diagnosis of household waste generation at the municipal level. 2. Characterization of waste management practices and assessment of corresponding health and environmental risks. 3. Financial analysis of three possible management scenarios at the municipal level. 4. Characterization of community waste management practices and evaluation of the social acceptability of a municipal management plan. Analysis of the political and institutional context of waste management in Mexico and Chiapas. Organization of a round table for the presentation of the results obtained to the political actors and main donors likely to take part in the initiative. Fondo Para la Paz (2016). Gestión de los desechos y seguridad ambiental en zonas de alta marginación: Esquemas inter-municipales y participación directa. Distrito Federal, Mexico. 21 p.
03/15 to 12/15	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Diversification and intensification of domestic food production through the implementation of 200 family production units for vegetables and poultry. Realization of community diagnostics in partnership with the Mexican Institute of Social Security, bibliographic study of the local economic and agricultural context, financial analysis, implementation and monitoring of the project. Co-financed by the Federal Ministry of Agriculture, Livestock, Rural Development, Fishing and Food (SAGARPA). Fondo Para la Paz (2015). Desarrollo integral de la Producción Familiar para la Seguridad Alimentaria en Comunidades rurales indígenas de Pantelhó, Chiapas. Distrito Federal, Mexico. 88 p.

08/14 to 12/17	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Project development and participation to the steering committee of a joint initiative to promote food sovereignty in 3 municipalities in the Highlands of Chiapas, through the establishment of short food channels connecting school alimentation with local groups of producers and cooks. Project realized within the framework of an alliance of 13 organizations of the local civil society. Fundraising, administrative and financial follow-up, animation of local groups, operation of a community canteen project and participation in two regional food sovereignty forums. <i>Fondo de conservación el Triunfo (2018). Informe narrativo anual – Proyecto: “Circuitos de Alimentación Escolar fase 1. Sve'em Koxetik (comedor infantil)”. San Cristóbal de Las Casas, Mexico. 54 p.</i>
11/13 to 05/14	Mexico Fondo Para la Paz, I.A.P.	Program Manager Magali Jauregui +52 1 55 4094 4946 magali.jauregui@fondoparalapaz.org	Opening of a new regional community development program for indigenous people in southern Mexico (Chiapas). Analysis of the historical, geographical, socio-economic and cultural context, search for local partnerships, field visits, establishment of collaboration agreements with local authorities, recruitment of a local bilingual team, opening and equipment of a base of operation on the fieldwork, implementation of operational and safety protocols, participatory diagnostics in participating communities, administrative management of the program, and fundraising. <i>Fondo Para la Paz (2014). Community Organization, Strategic Planning and Strengthening of Municipal Function in Pantelhó, Chiapas. Distrito Federal, Mexico. 17 p.</i>
09/13 to 10/13	United Kingdom Global Witness	Consultant Alexandra PARDAL +44 (0) 207 49 25 863 apardal@globalwitness.org	Analysis of value chains associated with industrial logging in the Congo Basin (DRC, CAR, Gabon, Cameroon and Republic of Congo). Characterization of international flows of logs, lumber, and plywood from the region. Identification of market shares held by the main producer groups and intermediaries. Characterization of the origin of capital invested in sub-regional production and processing. <i>[Confidential report]</i>
05/13 to 06/13	Mexico CONANP	Technical assistant Rodrigo FLORES rodrigo.flores@conanp.gob.mx	Technical assistant at the International Cooperation Service of the National Commission for Protected Natural Areas (CONANP). Development of concept notes and responses to invitations to tender for the financing of voluntary protection systems based on the experience of regional natural parks in France, in relation with the French Development Agency (AFD).
01/13 to 05/13	United Kingdom Global Witness	<i>Policy analyst</i> Alexandra PARDAL +44 (0) 207 49 25 863 apardal@globalwitness.org	Preparatory study on the Official Development Assistance of France to the forestry sector in the Congo Basin (DRC, CAR, Gabon, Cameroon, Republic of Congo). Characterization of the French ODA apparatus, identification of the financial volumes and the main actors concerned. Scientific review and case study on the socio-economic and environmental impacts of forest management and certification mechanisms. Evaluation of the economic viability of tropical forest certification and its penetration in international markets. Production of comprehensive arguments and guidelines to propose a better political orientation. <i>[Confidential report]</i>
08/12 to 11/12	Cameroon Greenpeace Forest Network	Campaign analyst Frédéric AMIEL +33 (0) 6 37 72 30 05 dekou@hotmail.com	Analysis of a land dispute linked to the controversial establishment of an industrial oil palm plantation in Cameroon's Southwest Province. Field investigation on the actors involved and their respective strategies. Geolocation and documentation of the progress of the plantation project. Assessment of local security conditions. Identification of potential and proven conflicts of interest among local political actors. Partnership building and strengthening with local and national Cameroonian civil society organizations. <i>[Confidential report]</i>

05/12 to 08/12	Cameroon Greenpeace Forest Network	Campaign analyst Frédéric AMIEL +33 (0) 6 37 72 30 05 dekou@hotmail.com	Assessment of the potential of family agroforestry as a sustainable alternative to industrial palm oil exploitation in southwestern Cameroon. Characterization of value chains and sustainability assessment of local agro-forestry production, including Cocoa, NTFP, and traditional palm oil. Territory modeling and analysis of underlying demographic, social, economic and environmental dynamics. Retrospective analysis of intentional management practices applying to natural resources and the environment. Analysis of traditional and regulatory systems to access to natural resources and land. <i>David COMBAZ (2013). Thrive to stay. Perspectives for forest conservation in a context of agro-industrial expansion and land-use conflict in the Southwest region of Cameroon. Yaounde, Cameroon. 51 p.</i>
02/12 to 04/12	India Agroparistech Executive	Research intern Pierre-Marie AUBERT + 33 (0) 6 77 07 67 02 aubert.pm@gmail.com	Environmental Prospective in partnership with the University of Agricultural Sciences of Bangalore. Territory modeling and characterization of land use dynamics in Kodagu District (Karnataka), strategic analysis of environmental management, prospective study for the implementation of Payments for Environmental Services (PES) as part of a policy watershed management, aimed at disseminating good practices applied to agro-forestry coffee production and community-based forest management by indigenous communities. <i>Ali BOUCETTA, David COMBAZ et al. (2012) Environmental prospective in Kodagu (Karnataka) – How to improve biodiversity and watershed resources management? Bangalore, India. 81 p.</i>
01/12	France National Group on Tropical Forests (GNFT)	Recorder Stéphane GUENEAU +55 61 991 19 10 50 stephane.gueneau@cirad.fr	Contribution to the third report of the National Group of Tropical Forests, as part of a collaboration between Agroparistech Executive and CIRAD. Participation in the National Conference on Tropical Forests organized by the French Ministry of Foreign Affairs (January 11 th and 12 th , 2012), compilation of the interventions, writing of summary notes and integration of the final report. <i>David COMBAZ, Yann FRANCOIS et al. (2012) Synthèse de la conférence sur les forêts tropicales. Paris, France. 38 p.</i> <i>GNFT, 2012. « Forêts tropicales : point d'étape et nouveaux défis. Quelles orientations pour les acteurs français ? » 3e Rapport du Groupe national sur les forêts tropicales. Paris, France 192 p.</i>
03/10 to 06/10	France Functional and Evolutionary Ecology Center (CEFE) – National Center for Scientific Research (CNRS)	Research intern Franck RICHARD +33 (0) 4 67 61 32 62 franck.richard@cefe.cnrs.fr	Analysis of the social acceptability of the establishment of a Natura 2000 conservation zone in the Pic Saint Loup region. Characterization of institutional relations between public actors and stakeholders involved in the territory and their respective objectives. Review of EU's conservation issues related to local natural habitats and their biodiversity, and the social representations and uses associated to them at grassroots level. Production of recommendations to the steering committee. <i>Sharina BAO, David COMBAZ et al. (2010) Comment améliorer l'Ancrage de Natura 2000 dans le territoire ? Montpellier, France. 144p.</i>
05/09 to 08/09	Indonesia CIRAD	Research intern Jean-Pierre CALIMAN +62 811 75 76 38 j-p-caliman@smart-tbk.com	Elaboration and trial of a plant biodiversity assessment protocol in a large-scale, RSPO certified experimental oil palm plantation (Golden Agri Resources, Sinar Mas tbk group) in Indonesia (Riau, Sumatra). Establishment of sampling procedures, creation of a reference botanical collection, data analysis, and training of the personnel in charge of the follow-up of the project. <i>David COMBAZ (2009) Vascular plant biodiversity in a high productive oil palm plantation. Riau, Indonesia. 30 p.</i>
07/08 to 08/08	Burkina Faso ONG CARI	Project manager Patrice BURGER +33 (0)4 67 55 61 18 contact@cariassociation.org	Evaluation of the implementation of the lessons of the seminar "Agroecology, Rural Development and Combating Desertification" organized by the CARI in Burkina Faso, with the participating organizations. <i>David COMBAZ (2008). Évaluation - suivi des sessions de formation CARI-ARFA à la ferme expérimentale de Natiaboani – Burkina Faso. Ouagadougou, Burkina Faso. 19 p.</i>

07/07 to 08/07	Burkina Faso ONG CARI	Project Manager Patrice BURGER +33 (0)4 67 55 61 18 contact@cariassociation.org	Organization on behalf of the CARI of a training seminar "Agroecology, Rural Development and Combating Desertification" for professional and civil society organizations in Burkina Faso. Identification of potential participants and their specific expectations, search for local partnerships. Selection of possible reception structures, identification of main logistics elements to be considered and estimation of associated costs. <i>David COMBAZ (2007). Préparation de l'atelier agro-écologie, développement rural et lutte contre la désertification et de la formation aux techniques agro-écologiques. Ouagadougou, Burkina Faso. 8 p.</i>
