

Curriculum Vitae – Anis CHAKIB

Expert in agriculture and forest at SalvaTerra SAS

www.salvaterra.fr

Surname: CHAKIB **First name:** Anis, Raoul
Date of birth: 20/04/1986 **Marital status:** Married, 2 children
Nationality: French **Email:** a.chakib@salvaterra.fr
Mobile phone: +33 6 89 80 54 02

Diplomas:

<i>Institutions</i>	<i>Dates</i>	<i>Title of qualification awarded</i>
Ecole Nationale du Génie Rural, des Eaux et des Forêts - University of Agronomy, Forestry, Water and Environmental Science and Technology (AgroParisTech-ENGREF, France)	2009-2012	Engineer specialized in tropical agriculture and forestry
University Montpellier II (France)	2008-2009	One year postgraduate diploma in Ecology Engineering and Biodiversity Conservation
Université Blaise Pascal, Clermont-Ferrand (France)	2005-2008	Bachelor's degree in biology specialized in environment
Lycée Descartes, Cournon d'Auvergne (France)	2004	"A" level in science with options in biology/geology, magna cum laude distinction

Languages (1 – excellent; 5 – basic):

<i>Languages</i>	<i>Comprehension</i>	<i>Oral</i>	<i>Written</i>
French	1	1	1
English	1	1	1
Spanish	1	1	1
Moroccan Arabic	-	3	-
Malagasy	-	5	-
Bahasa Indonesia	-	5	-

Computer skills: Windows/Mac/Linux - Word, Excel, Access, & PowerPoint and open source equivalents - GIS software: Arcgis, QGis - Statistics: SPSS, S-Plus.

Main skills and abilities:

▪ Feasibility studies et project evaluation:

- Feasibility of activities to support the development of agroforestry chains in Rwanda (Reforest'Action), Feasibility study of the Kounki project (fish and rice farming) in Guinea, feasibility study of the project "support the sustainable management of resources and territories of the Comoros" (AFD-EU), feasibility study of a "green/climate" credit line and technical assistance to the agricultural bank of Senegal - LBA (AFD-EU), feasibility study of a support program for cash crop agricultural sectors on the east coast of Madagascar (BM-PIC-3), pre-feasibility of 3 natural resources management and local development programs in CAR (AFD-CAFI), Feasibility study of the Talaky Be project in Madagascar, feasibility study of the Land Sustainable Use Progra (PUDT) in Congo, feasibility study of the CAFI program in Gabon (AFD-CNC Gabon), Feasibility study of a rural and agriculture development project in Guinea (AFD), feasibility study of the Equité 2 project "support to Fair Trade development in West Africa" (AFD-FFEM),
- Evaluation of the Forest and fauna national Inventory project in Côte d'Ivoire, evaluation of the Public/Private Partnership project for Sustainable Forest Management in Central Africa (FFEM), evaluation of the 2019-2022 multi-year partnership agreement (CPP) between AVSF and AFD, evaluation of the Fairtrade-Finland Cooperation and Development Program, Evaluation of the South-Western CAR Rural Development Project (AFC), evaluation of the Forest Management Control (FMC) Project in Gabon, mid-term evaluation of the project FONABES "sustainable forest management and bioenergy in Mali (AFD-FFEM), evaluation EUROCLIMA+ of project proposals on « Agriculture production resilience » in Latin America, etc.

- **Agriculture and forestry commodities value/supply chains** analysis in developing countries: Agroforestry, ecotourism, beekeeping and native plants in Rwanda ; cassava, bananas and vegetables in Comoros, agriculture and non-wood forest products in Africa; honey and handcraft in Indonesia; argan oil in Morocco; timber/wood in Ecuador and Central Africa; medicinal and cosmetic plants in Madagascar; palm oil in South-East Asia; agribusiness value chains in Madagascar (cashew, peanuts, coffee, cocoa, cotton, dry beans, cloves, vanilla, litchi, etc.); peanuts, rice, maize value chains in Guinea; cocoa, shea, cashew, fruit and craft value chains in West Africa, fuel wood and charcoal in Mali; Rice, cocoa, coffee, banana, plantain and beans in Dominican Republic, ylang-ylang essential oils in Comoros and Madagascar, wood and charcoal in Madagascar, etc.
- **Institutional/legal frameworks and sectorial public policies** analysis in the fields of climate, environment, agriculture, forestry, natural resources management and sustainable land management : Policies et strategies related to agriculture et and biodiversity in Ghana, Cameroun et Burkina Faso, non-wood forest products in Africa, land use planning, forestry and conservation sector in Gabon, palm oil concessions, community land rights and land use planning in Indonesia, deforestation/desertification reduction and agriculture policies in Morocco, forestry sector and forests conservation policies in Ecuador; National policy for agriculture investment and food security in Guinea ; Adaptation and mitigation strategies for agriculture in Latin America; Fuel wood national strategy in Mali; Agriculture policies in Comoros.
- **Support / advice for education institutions and farmers' organizations.** Capacity building, advices on agronomy and natural resources management, good governance, financial management, networking, national and international market access : 4 farmers' organizations in Madagascar, argan oil cooperatives in Morocco; Training on Climate Smart Agriculture (CSA) at ISAV-F in Guinea ; EUROCLIMA+ workshop on good agricultural practices in Latin America; training in agro-ecology and climate-smart agriculture for agronomists students (Bordeaux).
- **Support / advice for agriculture and forestry commodities certifications** (Organic, Fairtrade, sustainability) : FSC certified timber concession in Gabon, Congo and United-States, Organic/Fairtrade argan oil in Morocco, organic/Fairtrade medicinal and cosmetic plants in Madagascar, sustainability standards in palm oil sector (RSPO/ISCC/ISPO/MSPO/SAN/HCS approach); Vanilla in Madagascar; Cocoa, shea, cashew, fruits and crafts FairTrade certifications (FairTrade Max Havelaar-FLOCERT, Fair for Life-ECOCERT, WFTO, FPP) in Ivory Coast, Ghana, Burkina Faso, Benin, Togo and Mali; RSPO Oil Palm in Cameroun ; Rainforest Alliance and UTZ cocoa in Ghana ; Organic and FFL Shea butter in Burkina Faso et Ghana.
- **Socio-economic studies, participative mapping, sociology of organizations, stakeholders' strategies analysis in developing countries** (quantitative and qualitative approaches): RRA and participative mapping in Gabon, semi-structured interviews with NGOs, government agencies and local communities in Indonesia, semi-structured interviews with argan oil producers and government agencies in Morocco, quantitative enquiry and mapping with 250 rural households in Ecuador
- **Forest and landscapes management plans.** Inventory methodologies, logistic organization, data analysis and synthesis, management plan writing. Monts Kouffé protected forest in Benin, Saint-Guilhem-le-Désert national forest in France, OLAM group forest concession in Gabon, training on sustainable forest management in Mali, Landscape sustainable management plan in Madagascar.

Specific experience:

Country	Dates
Benin	May to June 2005
Central African Republic	December 2020
Comoros	July 2019; July 2023
Côte d'Ivoire	October 2018; October 2024
Dominican Republic	June 2019
Ecuador	September 2013 to December 2014; June 2017
France	Country of residence
Gabon	February to June 2011; November 2016; October 2017; November 2019 ; January 2020, December 2021 ; January 2023
Ghana	November 2018; February-March 2020
Guinea	March to April 2017; March 2018; April-May 2018; June 2024; July 2024
Indonesia	Mars to September 2012
Italy	September 2010 to January 2011
Madagascar	February 2015 to February 2016; December 2017; January 2018; July 2018; February 2019; March 2022; November 2022; February 2023
Mali	February 2019; September 2021
Morocco	June to July 2013; June 2022
Senegal	June 2023; December 2023; February 2024
Togo	January to April 2005
Tanzania	May 2022
Tunisia	August 2011
Rwanda	March 2024; May 2024; April 2025

Professional experience:

Dates	Location & Organization	Position & Contact	Description
01/17 to present	France SalvaTerra	Forest, agriculture and rural development expert	Expertise and development of projects related to agriculture, forests and rural development in developing countries.
03/25 to 12/25	Comors, La Réunion, Madagascar, Mauritius, Mayotte, Seychelles SalvaTerra	Team Leader Ref : vincent.hornsperger@capbusiness.io	Exploratory study of regional value chains for biomass products in the Indian Ocean region. Evaluation of the potential and relevance of creating or developing biomass value chains: assessment of regional biomass resources, analysis of value chains and market systems. Facilitating access to development, investment, market entry, and sustainable management of biomass products by regional businesses. Development of short-term, fundable projects in the region. Knowledge capitalization and dissemination. Funding: Cap Business Indian Ocean (project funded by the French Development Agency).
03/25 to 06/25	Rwanda SalvaTerra	Team Leader, expert in agroforestry and value chains Ref : itziar.aguinagail@reforestaction.com	Analysis of the development potential of agroforestry-related value chains in the MuLaKiLa project zone. Context assessment and value chain prioritization, characterization of actors and production to commercialization stages, identification of opportunities and constraints, etc. Recommendations for sustainable and inclusive development strategies and business plans for prioritized value chains. Funding: Reforest'Action.
01/25 to 03/25	Europe, Etats-Unis, Canada, Congo, Ghana SalvaTerra	Team Leader, expert in forest and timber sector Ref : confidential	Diagnostic and advisory support for sustainable and responsible sourcing of black walnut and tropical woods (Sapelli, Makoré, Ebony): State of knowledge of species (distribution, conservation, threats, management), analysis of forest certifications, mapping and analysis of the company's product supply chains, identification of suppliers and transformation stages, evaluation of social/environmental risks, and recommendations for sustainable and responsible sourcing.
09/24 to 12/24	Côte d'Ivoire, SalvaTerra	Team Leader Ref: lnayfr@yahoo.fr	Final evaluation of the National Forest and Wildlife Inventory (IFFN) project in Côte d'Ivoire. Assessment and critical analysis of project performance. Consideration of forestry, wildlife and socio-economic aspects, and recommendations for the sustainability of the system. Financing: AFD.
07/24 to 02/25	Comoros, SalvaTerra	Team Leader, value chains expert Ref: habib.hammami@expertisefrance.fr	Study of the constraints and potential for export development of the Comoros vanilla industry. International market analysis, opportunity analysis and sector maturity, benchmark with other origins, and roadmap for the development of the sector. Carried out on behalf of Expertise France and the AFIDEV project, financed by AFD.
04/24 to 12/24	Guinea, SalvaTerra	Team Leader Ref: lecouffec@afd.fr	Feasibility study for the Kounki project (development of pisci-riziculture) in Guinea: (i) analysis of climate risks for fish farming and formulation of adaptation options, (ii) support for the feasibility study for the development of sustainable family commercial fish farming resilient to climate risks in Guinée Forestière and Guinée Maritime, including the monitoring and evaluation framework, institutional set-up, choice of technical options, environmental and social safeguards, etc. Financed by AFD under the Adapt'Action facility.
03/24 to 08/24	Rwanda, SalvaTerra	Team Leader, value chains expert Ref: jacques.peeters@enabel.be	Diagnosis and development plans for three value chains (beekeeping, ecotourism, native plants and seeds) for six village cooperatives involved in the management of Community Biodiversity Sancta (CBS), as part of the COMBIO project set up by ENABEL. SWOT analyses, stakeholder mapping, facilitation of working groups with cooperatives, field diagnostics, implementation of roadmap and business plan. Funding: ENABEL.

11/23 to 02/24	Senegal, SalvaTerra	Climate change and value chains expert Ref: aziz.diedhiou@labanqueagricole.sn	Situation analysis of Senegal's agricultural sector and relevant Climate Smart Agriculture (CSA) options for key sectors: rice, groundnuts, local cereals, market gardening, bananas, arboriculture (mango, citrus), livestock. Characterization of financeable AIC best practices within the framework of a Green Climate Fund (GCF)-supported project of the Agricultural Bank of Senegal. In collaboration with HORUS finance-development.
06/23 to 12/23	Comoros, SalvaTerra	Team leader viallequerinas@afd.fr	Feasibility study of the Project "Support the Sustainable Management of Resources and Territory of the Comoros (AGDRTC). Multi-thematic diagnosis (environment, agriculture, fishing, planning, governance, climate, gender, etc.), consultations and technical, organizational and budgetary formulation of the project. Component 1. Support for the Mohéli National Park; Component 2: Operationalization of the Mohéli Territorial Development Plan and watershed approach; Component 3: Development of Territorial Development Plan in Grande Comore and Anjouan.
06/23 to 11/23	Senegal, SalvaTerra	Expert in sustainable agriculture and value chains, aziz.diedhiou@labanqueagricole.sn	Feasibility study of a credit line and technical assistance for green and climate agricultural investment in the Banque Agricole du Sénégal (LBA). Diagnosis of LBA's agricultural portfolio and climate partnerships. Study of green/climate financing potential and climate risks in the main supported sectors.
11/22 to 05/23	Afrique Centrale (Gabon, RD Congo, Congo, RCA, Cameroun), SalvaTerra	Forestry expert ahmim-richarda@afd.fr	Final evaluation of the Public/Private Partnership for Sustainable Management of Central African Forests project (P3FAC), 2017-2022. Analysis of the documentation and interviews with the main actors of the project (ATIBT, Nature+, CIRAD, GxABT-ULg, COMIFAC, FFEM, forestry companies, etc.). Elaboration of capitalization documents (illustrated book, 4 pages, video) of DynAfFor and P3FAC projects. Financing: FFEM.
10/22 to 07/23	Madagascar, SalvaTerra	Team Leader, agroeconomist haingo.m@pic.mg	Identification and evaluation of the potential of the export agricultural value chains along the eastern coast: vanilla, cloves, coffee, litchi, cinnamon, pepper, ginger, turmeric, essential oils, honey, fruits, chili, etc. Capitalization of the existing data and update the information available on the sectors. Contribute to the selection of the most promising commodity chains. Detailed analysis of the priority sectors. Mapping of intervention areas. Proposals for operational strategies and activities to remove constraints and optimize the development potential of the sectors.
09/22 to 03/23	République centrafricaine, SalvaTerra	Backstopping y.petrucchi@terea.net	Conduct of 3 pre-feasibility studies for regional programs of local development and sustainable management of natural resources: (i) the Bangui area and periphery; (ii) the complex of protected areas of Dzanga-Sangha, Mbaere Bodingue and corridor and (iii) the Bangassou forest. In collaboration with TERE and IRAM.
06/22 to 10/22	France, Equateur, Madagascar, Sénégal, SalvaTerra	Team Leader c.chauveau@avsf.org	Final evaluation of the 2019-2022 Multi-year Partnership Agreement (CPP in french) between AFD and the NGO Agronomists and Veterinarians Without Borders (AVSF). Analysis of the level of performance of the implementation of the CPP with focus on innovation, institutional strengthening of partners, networks, effects and impacts of actions and policy impact. Case studies in Ecuador, Madagascar and Senegal. In collaboration with IRAM.
04/22 to 10/22	Tanzani, SalvaTerra	Forestry expert willardf@afd.fr	Feasibility study of a major forestry plantation and capacity building project of the Tanzanian National Forestry Services (TFS). Diagnosis of the situation, proposal of intervention modalities, drafting of Project Identification Note (PIN) and project feasibility documents. In collaboration with FORCONSULT, ONFI and BIOTOPE. Financing: AFD.
06/22 to 09/22	Italy, Morocco, Tunisia, SalvaTerra	Expert agriculture durable mapaulin@vertigolab.eu	Assessment of the needs of Mediterranean agricultural entrepreneurs for the adoption of sustainable practices. Case studies on arboriculture sectors in Italy (olive), Morocco (apple, plum, cherry) and Tunisia (almond, citrus). Analysis of documentation, field missions and writing of a diagnostic report.

01/22 to 10/22	Finland and 7 countries of Latin America and Africa, SalvaTerra	Backstopping teemu.sokka@fairtrade.fi	Evaluation of the Fairtrade Finland's Cooperation and Development Program (2018-2021). Literature review, conducting interviews (FT-F, FT-I, FT-Africa, CLAC, etc.), performance evaluation and recommendations.
03/21 to 05/21	France, SalvaTerra	Backstopping h.derevel@franceboisforet.fr	Evaluation of the programs financed by the Maritime Pine Specialized Section of France Bois Forêt, in relation with the seed resource. Analysis of agreements and program documents and budgets, interviews with program stakeholders, evaluation of program performance and recommendations.
09/21 to 12/22	Mali, SalvaTerra	Climat and sustainable agriculture expert Ref : ascoulibaly@bndamali.com	Technical assistance to the National Bank for Agricultural Development (BNDA) of Mali for the development and implementation of a climate strategy in the agricultural and renewable energy sectors. Diagnosis of the agricultural sector and climate-related risks, proposal of a strategy and an analysis and categorization grid for "climate" projects. In collaboration with HORUS Finance-Development and ID-Sahel. Financing: AFD.
12/20 to 09/21	Republic of Congo, SalvaTerra	Expert Aménagement du territoire Ref : augerschwartzbergm@afd.fr	Feasibility study of the Sustainable Land Use Program (PUDT) in Congo. Structuring of the program, institutional set-up, formulation of activities related to the National Land Use Plan (PNAT), the Departmental Land Use Plans (SDAT), etc. Funding: Central African Forest Initiative (CAFI) and Agence française de développement (AFD)
11/20 to 03/21	Central African Republic, SalvaTerra	Team Leader Ref : lhotex@afd.fr	Final evaluation of the Regional Development Project of the South West of the Central African Republic (PDRSO). Evaluation of the components: local development, forest management and REDD+. In collaboration with Sylvatrop Consulting.
02/20 to 01/22	Madagascar, SalvaTerra	Expert agricultural value chains Ref: laureta@afd.fr	Feasibility study of the Talaky Be project - Adaptation of agriculture to climate change and strengthening the resilience of rural communities in south-eastern Madagascar. Study of the environmental context and agricultural and natural resource management issues. Agrarian diagnostics, value chain studies and analysis of vulnerability to CC. In collaboration with IRD and Meteodyn. Funding: AFD - Adapt'Action Program.
01/20 to 12/20	Madagascar, SalvaTerra	Team Leader, expert agricultural value chains Ref: haingo.m@pic.mg Tel: + 261 3410 819 20	Study of the production and marketing potential of agricultural value chains in the Anosy and Atsimo Atsinanana regions: cloves, vanilla, lychee, pepper, coffee, honey, fruit, etc. Agrarian diagnosis, analysis of the sectors, actors, infrastructures, etc. Mapping of lychee and clove plantations by photo-interpretation and remote sensing. In consortium with Geosystems. Financing: World Bank.
03/20 to 05/20	France, SalvaTerra	Backstopping Ref: h.derevel@franceboisforet.fr Tel: +33 1 44 68 18 56	Feasibility study to determine the conditions and strategic axes to accelerate the development of the exchange platform for wood supply (eMOBOIS). Documentary analysis, semi-structured interviews with operators in the forest-wood sector, online survey. Analysis of the structuring of the forest-based sector, identification and quantification of potential eMOBOIS users in the different segments of the sector, identification of specific needs and estimation of potential benefits of eMOBOIS adoption by sector. Recommendations on the necessary conditions and limitations for the deployment of eMOBOIS. Proposal of a strategic roadmap and action plan for the intensive deployment of the tool. Financing : France Bois Forêt (FBF)
11/19 to 05/20	Ghana, Burkina Faso, Cameroun, SalvaTerra	Team Leader, expert agricultural value chains and biodiversity Ref: sareme.gebre@iucn.org	Study of the political contexts, environmental issues and good practices of agricultural and mining sectors in Central and West Africa: Cocoa in Ghana; Shea and NTFPs in Burkina Faso and Ghana; Palm oil in Cameroon and artisanal and industrial mines in Burkina Faso and Ghana. Analysis of the political, strategic and regulatory contexts; Study of value chains, their environmental impacts and existing good practices; Case studies of companies. In consortium with Initiative Conseil International (ICI). Funding: International Union for Conservation of Nature (IUCN).

04/20	France (Montpellier), SalvaTerra	Team Leader Ref: raphael.manlay@agroparistech.fr Tel: + 33 4 67 04 71 26	Training course to the students of AgroParisTech, option GEEFT, in the frame of the module "Tropical forests and global change": (i) Clean Development Mechanism (CDM): key-features, forests and mitigation of climate change, state of the art and outlook for the CDM, carbon pools and GHG fluxes, project cycle, CDM guidelines, legal aspects of CDM credits trading, (ii) REDD+ approach and issues, (iii) Zero-deforestation commodities. Financing : AgroParisTech.
12/19 to 04/20	Gabon, SalvaTerra	Expert forestier et évaluation Ref: ducastel@afd.fr	Evaluation à mi-parcours du projet Contrôle de l'aménagement forestier (CAF) au Gabon. Bilan objectif du projet, analyse de la performance selon critères CAD-OCDE et recommandations stratégiques, techniques et opérationnelles pour la suite. Analyse de : i) référentiels de contrôle forestier, ii) projet immobilier, iii) système d'information du Ministère des forêts, iv) Gestion des RH du Ministère, v) Missions de contrôle des concessionnaires forestiers. Financement Agence française de développement (AFD). Mid-term evaluation of the Forest Management Control (CAF) project in Gabon. Assessment of the project, analysis of performance according to OECD-DAC criteria and strategic, technical and operational recommendations for the future. Analysis of: i) forest control methodologies, ii) real estate project, iii) Ministry of Forests information system, iv) Ministry HR management, v) Control missions of forest concessionaires. Financing: Agence française de développement (AFD).
10/19 to 12/20	Madagascar, SalvaTerra	Backstopping Ref: haingo.m@pic.mg Mob: + 261 3410 819 20	Study, design and manufacture of two innovative prototypes for the improved distillation of essential oils in the Diana region (Nosy Be and Ambanja). Study of the distillation sector in the Diana region and Madagascar, identification and development of high energy efficiency prototypes, construction and performance tests. Financing: World Bank.
10/19 to 10/21	Gabon, SalvaTerra	Land and forest management expert Ref: j.darelnno@gmail.com	24 months technical assistance to the CAFI program in Gabon. National Land Use Plan (PNAT) and National Observation System for Natural Resources and Forests (SNORNF). Advisory support, technical expertise, piloting of activities with the National Climate Council (CNC), the National Parks Agency (ANPN) and the Gabonese Agency for Spatial Studies and Observations (AGEOS). Project management, monitoring-evaluation, reporting, etc. CAFI funding.
10/19 to 11/19	World, SalvaTerra	Climate Change expert Ref : Marie.LeGuillouzic@bettercotton.org	Development of a training module on the links between Climate Change (CC) and cotton production. Reminders on CC, presentation of the impacts of CC on cotton production, consideration of CC in the Better Cotton Initiative (BCI) principles and criteria. Good practices for mitigation and adaptation to CC in the cotton sector. Access to funding for cotton sector related to CC. Financing: Better Cotton Initiative (BCI).
10/19 to 05/20	Madagascar, SalvaTerra	Forestry expert Ref: oliva_rafali@yahoo.fr Tel: +261 34 49 410 10	Elaboration of a Sustainable Landscape Management and Development Plan for the Izafo area in Madagascar. Specific studies and contributions on the forestry sector: natural forests, plantations, non-timber forest products, wood and charcoal consumption, etc.
09/19	France (Bordeaux), SalvaTerra	Agro-ecology trainer Ref: daciana.papura@agro-bordeaux.fr	Training session in the Bordeaux agronomy university on agro-ecology and Climate Smart Agriculture (CSA): i) Introduction to CSA, ii) agroforestry and the fight against deforestation in the cocoa sector in Côte d'Ivoire, iii) analysis of good agricultural practices for adaptation to CC in 18 sub-Saharan countries. Financing: Sciences Agro Bordeaux.
08/19 to 09/19	Côte d'Ivoire, Ghana, Burkina Faso, Mali, Benin, Togo, SalvaTerra	Team Leader agro-economist, expert in certifications Ref: ahmim-richarda@afd.fr Tel: +33 1 53 44 33 52	Feasibility study and elaboration of the FFEM "Project Commitment Note" (NEP) for the EQUITE II program "Supporting Fair Trade sector in West Africa". Consolidation of the activities related to agroecology, agroforestry and "zero deforestation" (in particular in the cocoa sector). Revision of the logical framework and the monitoring and evaluation system of the environmental effects and impacts of the program. Financing of French Fund for the Global Environment (FFEM).

07/19 to 12/19	Comoros, SalvaTerra	Agro-economist expert Ref: marta.lazarska@egis.fr Tel : +33 4 67 13 91 69	Study of the ylang-ylang sector and the agricultural context on the island of Mohéli in the Comoros. Mapping of the actors of the sector, detailed analysis of the value chain, characterization of socio-economic and environmental issues, "SSWOT analysis, etc. Expertise carried out as part of the feasibility study of the project "Supporting the adapted management of Mohéli's natural resources in a climate change context" (GeReM) financed by AFD's Adapt'Action program. In collaboration with EGIS Eau, Carbonium and Meteodyn.
06/19 to (in progress)	Dominican Republic, SalvaTerra	Agro-economist and backstopping, Ref: marta.lazarska@egis.fr Tel: +33 4 67 13 91 69	Implementation of two studies as part of AFD's Adapt'Action program: i) Climate change vulnerability study of the agricultural sector. Banana, cocoa, coffee, bean, plantain, and rice value chains. Study of Climate smart agriculture / Good Agricultural Practices and Development of two Climate change Adaptation Plans. ii) Study for the development of climate services for the agricultural sector. In collaboration with EGIS eau, Carbonium and Meteodyn.
02/19 to 04/19	France, SalvaTerra	Forestry and timber value chain expert Ref: h.derevel@franceboisforet.fr Tel: +33 1 44 68 18 56	Evaluation of the eMOBOIS Program. Documentary analysis, semi-structured interviews with operators of the forest-wood industry, online survey. Analysis of the implementation, results and effects of the program. Recommendations to put in place favourable conditions for the success of the program in the future and its good articulation with the program "digital channel". Recommendations of positioning of France Bois Forests (FBF) on the interest of prolonging or not the financing of the program. Financing of France Bois Forests (FBF).
02/19	France, SalvaTerra	Forestry and carbon projects expert Ref: raphael.manlay@agroparistech.fr	Supervision of two groups of AgroParisTech students (GEEFT option) in Montpellier within the framework of the module "Tropical forests and climate change: applications". Realization of Project identification notes (PIN) for carbon projects: i) Afforestation / reforestation of acacia and oil palm on degraded lands in DR Congo; ii) Energy substitution with solar salt in Guinea. Financing of AgroParisTech.
01/19 to 02/19	Mali, SalvaTerra	Forestry and fuel wood expert Ref: deboisfleurvy@afd.fr Tel: +33 1 53 44 63 94	Mid-term evaluation of the project "Management of natural forests and sustainable supply of wood energy of Sahelian cities (FONABES)". Analysis of the Bamako Domestic Fuel Supply Master Plan (SDACD), three Municipal Forest Management Master Plans (SDAFC) and nine Simplified Management Plans (PAGS) in Mali. Field mission, meeting with: Central Coordination Unit, technical teams and service providers, National Forest Water Directorate, regional and local water and forest services, timber management cooperatives, loggers, etc. Financing of French Development Agency (AFD).
10/18 to 04/19	Côte d'Ivoire, Ghana, Burkina Faso and Mali SalvaTerra	Expert in agricultural value chains and Fairtrade Ref: dollfuse@afd.fr Tel: +33 1 53 44 33 27	Retrospective evaluation of the EQUITE program "Support to the development of Fair Trade in West Africa" (phase 1) and feasibility study of a new EQUITE 2 program "Consolidate trade channels and networks of Fair Trade representations to make the ecological and social transition in West Africa ". Study of the cocoa, shea nuts, cashew nut, fruits (mango, etc.) and handicrafts sectors. Certification labels: Fairtrade Max Havelaar (FLOCERT), Fair For Life (ECOCERT), WFTO, SPP. Financing of French Development Agency (AFD) and French Fund for the Global Environment (FFEM).
10/18	Lebanon, Egypt (from France), SalvaTerra	Expert in agriculture (backstopping) Ref : ahmim-richarda@afd.fr Tel : +33 1 53 44 33 52	Revision of the project identification note "Collective and Contextualized Strategies for Promoting Resilient and Sustainable Agricultural Production in Mediterranean Rural Areas" for the Scientific and Technical Committee of the French Global Environment Facility. <i>[Confidential Report]</i>
05/18 to 08/18	Latin America (from France) SalvaTerra	Sustainable agriculture expert	Evaluation and scoring of project proposals in 17 Latin American countries submitted as part of a Call for Projects proposals under the component "Resilient Food Production" of the EUROCLIMA+ program (financed by the European Commission). Analysis of the projects contexts, the relevance of the actions, the technical and organizational feasibility, the structure and content of the logical framework, budgets, etc. Financing Expertise France and GIZ.

		Ref : julia.charbonnier@expertisefrance.fr Tel : +33 1 70 82 73 50	
07/18 to 08/18	Madagascar, SalvaTerra	Agricultural value chains expert Ref : haingo.m@pic.mg Tel : + 261 3410 819 20	In-depth study of the vanilla sector in Madagascar and at the international level. Analysis of the political and economic context of the sector in Madagascar, the supply (products, quality and quantity), the demand (international trade), the organization of the sector and its actors, the Malagasy, European and American regulations. Study of traceability and sustainability issues within the vanilla sector (certifications, voluntary initiatives, etc.). Financing of World Bank.
03/18 to 04/18	Guinée, SalvaTerra	Sustainable agriculture expert Ref : Jean.leroy@egis.fr Tel : +224 624 90 95 36	Feasibility study of the agricultural development project in the groundnut basin of Dabola: Detailed agrarian diagnosis; Analysis of projected impacts of climate change and the vulnerability of rural populations; Design of support measures for agricultural production (support in the field of agro-ecology and climate-smart agriculture, promotion of animal traction, dissemination of improved seeds adapted to climate change, subsidised agricultural credit); Design of support measures for income and food diversification, focusing on the most vulnerable households (irrigated rice farming, off-season gardening, income-generating activities: NTFP processing, fattening, semi-modern poultry farming, etc.). Financing of the French Agency for Development (AFD).
12/17 to 06/18	Madagascar, SalvaTerra	Agribusiness value chains expert Ref: haingo.m@pic.mg	Studies of agricultural value chains (cashew, peanuts, coffee, cocoa, cotton, pink berry, dry grains, clove, lychee, honey, moringa, pepper, vanilla, etc.) and support for the formulation of sector development strategies and action plans under the "Promoting sustainable development of agribusiness" component (\$ 20M) of the Integrated Growth and Corridors Project (phase 2). Financing of World Bank.
11/17	France (Montpellier) SalvaTerra	Team leader Ref: raphael.manlay@agroparistech.fr Tel: + 33 4 67 04 71 26	Training course to the students of the Ecole nationale du génie rural, des eaux et forêts (ENGREF) in the frame of the module "Tropical forests and global change": (i) Clean Development Mechanism (CDM): key-features, forests and mitigation of climate change, state of the art and outlook for the CDM, carbon pools and GHG fluxes, project cycle, CDM guidelines, legal aspects of CDM credits trading, (ii) Similarities/differences among voluntary carbon standards, (iii) Concrete examples of CDM or voluntary carbon projects. Financing of ENGREF. Presentation (French): Salvaterra (2017). Tropical Forests and Global Change: CDM, REDD + financing and supporting the production of "zero deforestation" commodities. Montpellier, France, 3 presentations.
10/17 to 12/17	Gabon, SalvaTerra	Expert planification de l'affectation des terres et suivi de l'UTCF Ref : willardf@afd.fr Tel: + 33 1 53 44 48 12	Feasibility study and development of a program document (€ 18 million) in the framework of the partnership between Gabon and CAFI. Development and consolidation of the Program activities and budgets for the development and implementation of a National Land Use Plan (PNAT) and a National Monitoring System for Natural Resources and Forests (SNORNF). Funded by the French development agency (AFD). <i>Program document (french) : AFD-CNC (2018). Planification nationale de l'affectation des terres et surveillance forestière pour promouvoir des stratégies de développement durable pour le Gabon. Gabon, Libreville, 108 p.</i>
09/2017	Mozambique (from France, SalvaTerra)	REDD+ expert Ref: willardf@afd.fr Tel: + 33 1 53 44 48 12	Analysis of the ER-PD submitted by Mozambique to the FCPF: Zambézia Integrated Landscape Management Program. Critical analysis of the document credibility and relevance in terms of ambition, scale of action, impact on drivers of deforestation and forest degradation, and improvement of land tenure. Analysis of the institutional anchoring, the operational capacities of the entities involved, the relevance of the activities and the realism of the proposed budget. Funded by the French Development Agency (AFD).
